What is Corsac?

Corsac is a decentralized all-in-one ecosystem on Binance blockchain which is one of the fastest-growing and safest Blockchain protocols. Our team developed the community-driven project. It's our aim to take cryptocurrency to new heights. we aim to be a platform that will provide all facilities under a single platform. Corsac will be a whole ecosystem that will provide features like Staking, NFT Marketplace, and Swapping. Corsac will develop its own unique NFT marketplace and will connect the decentralized community. People will now be able to own exclusive rights on NFT.

Corsac has Following Key Features:

secure

NFT

Community Focused

What is Corsac?

Corsac has been built with one purpose to build the best-decentralized technology available and make an equal impact on Community at the same time by implementing it in their ecosystem. we are revolutionizing the decentralized protocol with a community-driven ecosystem. We are more than just a token, we are the future of decentralization and swapping in an open-source environment, on modular frameworks, that is censorship-resistant. Corsac is built to balance all aspects of its protocol and achieve justifiable long-term growth with deliberately developed tokenomics.

Staking will allow users to earn yield in a form of Corsac tokens. We are revolutionizing the market with a more open, accessible, and fair global financial system with decentralized-powered crypto swapping. Unlike, other conventional platforms, Our wallet allows tracking and sending/Recieving to generate more value to user's crypto-assets.

Key Features:

Binance	Unique Swap	Decentralized wallet

VISION

We aspire to put "cryptocurrency in every portfolio." We envision a world where wealth-building strategies that were once only accessible to affluent individuals become available to everyone, transferring the power over our financial systems back to the people. Corsac is going to create a revolutionary ecosystem to bring more people into digital assets, helping to earn a passive income through redistribution/ reflection, by staking the Corsac token long-term, along with maintaining their privacy, security, power, and autonomy. We strive to create an ecosystem based on sound monetary policies, with a sound and solid decentralized foundation, that should be expected with the Corsac digital asset.

VISI**O**N

OUR MISSION

Corsac is a decentralized finance platform built on a blockchain with a mission to create a community-driven ecosystem that empowered the holders to better their financial condition.

Our mission is to:

- Provide every Holder with simple and effective ways to gain exposure to digital assets.
- Lower the barrier for entry to a more advanced financial ecosystem.
- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.
- Our mission is to provide support to the impoverished so a part of the token distribution is fixed to the marketing and liquidity wallet.
- Decrease volatility and increase positive price pressure in digital asset staking.
- Our mission is to pave the growth of crypto adoption - this happens when the users feel confident to explore the blockchain space.

Corsac Swap

You can trade crypto in your Private Key Wallet using Swap. When you swap from your Account, you get a speedier settlement and there are no network costs. You may profit from non-custodial, transaction settlement by swapping from your Private Key Wallet. Corsac Swap's special sauce is a faster settlement, transparency, ultra-fast transaction speed, and transaction security.

There are many great reasons our Wallet users love using Swap:

- Quickly swap into an asset you believe will grow.
- Move out of a volatile asset into one of our tokens.
- Hedge against real-world events.
- Corsac platforms are integrated into the top cryptocurrency trading exchanges in the world, this allows users to search and select the best rates for the transaction.

STAKING

Staking is a great way to maximize your holdings in staking coins that would otherwise be sitting in your Corsac account. Once you have staked your assets you can earn staking rewards on top of your staking and grow them further by compounding those future rewards. This provides dual benefits of securing the blockchain network as well as creating an opportunity for users to get incentives or dividends on their staking.

As an incentive to acquire and keep onto staking assets, you can receive incentives by staking cryptocurrencies for a period of time. Simply choose the asset you want to stake to earn staking rewards, and after it has done bonding, it will be ready to start staking and receiving rewards.

Our staking platform will help the community increase the number of Corsac that users hold. More importantly, every time you stake, you will participate in the charity donation.

BENEFITS OF STAKING

Sovereign system

A decentralized global currency complete with an efficient infrastructure

SECURITY

It has inherent security which is essential to maintaining the integrity of a ledger

FAST TRANSACTION

It has high speed transaction rate than others that makes him fast and unique than other

LOW TRANSACTION FEES

Corsac runs on BSC which has one very low transaction fees

COMPLETE UNIQUENESS

Corsac is a decentralized token with a charity focus.

DECENTRALIZATION

Data is replicated in a distributed network of nodes, thus eliminating several present risks when data is stored centrally. There is no single point of failure in the case of Corsac app.

Corsac NFT

Corsac is also going to launch its own NFT platform where users can sign up and create their own Corsac NFT characters by the artist. Our NFTs' basic characteristics provide them a distinct value and categorically distinguish them from other forms of assets. These characteristics include verifiably uniqueness and indivisibility. Because the underlying code is transparent the scarcity and ownership of any given token can be determined without the use of a trusted middleman.

Corsac NFT

1-Easily Transferable:
The transfers of NFTs are centered on their uniqueness and indivisibility, thus the tokens are sold and purchased on a unique market.

2- Trustworthy:
NFTs are based on blockchain technologies. Consequently, you must be confident that your NFT is right, as counterfeiting a decentralized and permanent record is difficult.
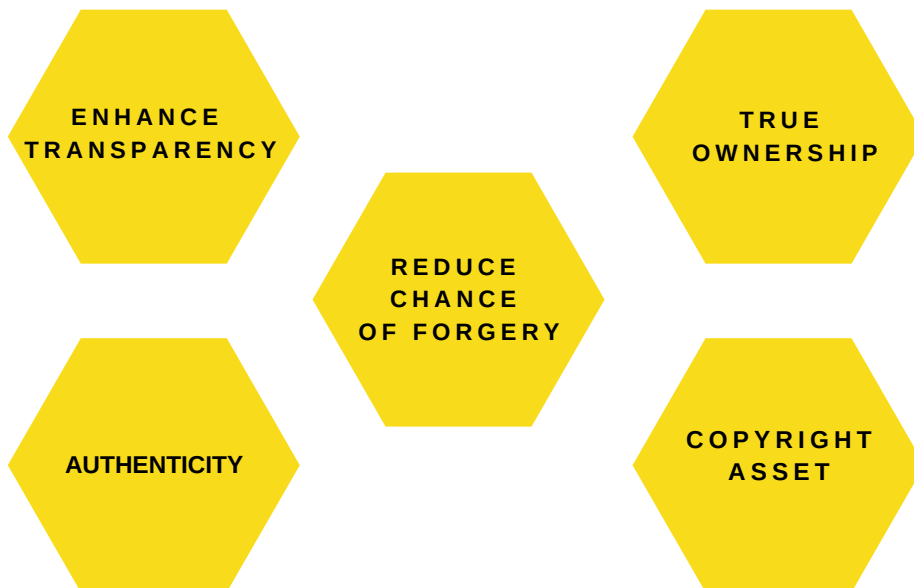

3- Maintain Ownership Rights:
This is a network of open platforms the size of an NFT, with no buyer having the ability to modify the data later.

How Corsac ecosystem is transforming the NFT

Transparency, authentication, ownership, provenance, copyright, and forgery have all been issues in the NFT industry for a long time. Moreover, the industry has historically been restricted to the elite who can manage to invest millions of dollars on a single piece of art On the other hand, is unquestionably intended to be enjoyed by everyone, and it can transcend all social and economic barriers.

Fortunately, with our designed ecosystem, the obstacles outlined above are nearly resolved. And, as of today, the industry has created and effectively deployed amazing and sophisticated pieces of art. we are ready for transformation in the way NFT is purchased, marketed, sponsored, loved, and even made.

We will eventually be adding an NFT platform to the Corsac website, where artists will be able to upload their NFT's to the blockchain and be able to compete against one another to have their art and brand promoted through the Corsac channels.

ENHANCE TRANSPARENCY

TRUE OWNERSHIP

REDUCE CHANCE OF FORGERY

Corsac Wallet

The Corsac wallet version is supported on both Android and iOS. The wallet is highly focused on enabling users to manage their token and interact with the ecosystem. The private keys for the wallet are stored on the user's device and are secured through Secure Enclave and biometric authentication technology.

Users can complete all the normal functions that a wallet provides. They can monitor their balance as well as send and receive Token. Users can also exchange on through the Corsac wallet and use and swap their token. The wallet enables users to access decentralized exchanges so that they can easily convert between their token. Corsac Wallet is fast, secure, and will have a low transaction fee than others, and users can donate and vote for the organization by using our wallet. A user can hold and swap by using the Corsac Wallet.

Here are some of the important features of Wallet:

- Easy to use. It's just like any other software or wallet that you use for your day-to-day transactions.

- Highly secure. It is just a matter of securing your private key.

- Allows instant transactions across geographies. And these are barrier-free, without intermediaries.

- Low transaction fees. The cost of transferring funds is much lower than with traditional banks.

- Allows transactions across multiple cryptocurrencies. This helps you do easy currency conversions.

Corsac Finance

- Corsac lends money to borrowers and a specific amount of interest is charged which the lender will get an incentive. To be precise, lenders earn on interest and borrowers can get loans quickly and anonymously without interacting directly.

- Corsac Lending is more suitable for users who prefer low-risk investments and pursue stable returns. It means that Lending is a perfect match for holders who can keep tokens and earn extra profit.

- Furthermore, it is user-friendly to new crypto investors, who can lend crypto assets to earn passive income with several simple clicks. We all know that all investment comes with risks, but relatively Corsac Crypto Lending is a low-risk product.

- You may worry, what if the guy who borrows my crypto refuses to pay it back? Here's the thing, borrowing on the platform requires collateral, which ensures that the lenders can get the principal and the interest in full.

- The users of decentralized lending platforms can apply for a loan of any size without having to confirm their identity to a third party. Loans can be supported in cryptocurrency.

How does Corsac Lending/ Borrowing work?

Deposit crypto assets as collateral

Deposit Funds

Obtain crypto loans

Borrower

Coresac Lending

Lender

Repays the loan with interest

Receives collateral back after repayment

Receives funds back with interest (Passive money)

Why you should invest in Corsac?

Open for global participants

Corsac facilitates the transaction and brings them closer to a wider audience. An added benefit of Corsac use is that it's completely decentralized, so trading can be done freely across borders. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. Corsac has no border so these can be used no matter where you are located globally. This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

Free from corporate and government interference

Corsac transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

Increased liquidity for investors

Corsac enjoys high liquidity as they are traded. The importance of high liquidity includes fair asset prices, market stability, technical analysis accuracy, and quicker transactions.
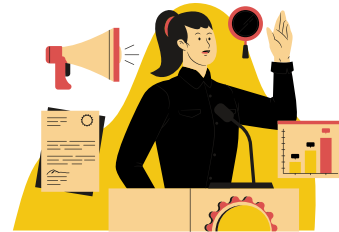

Blockchain compliant

Corsac is a Binance Blockchain-compliant token means that it supports functions that Binance tokens support.

Why you should invest in Corsac?

Transparency & Immutability

With Corsac, each time exchange of tokens is recorded on the blockchain, an audit trail is present to trace where they came token from. This can not only help improve security and prevent fraud in exchange-related businesses, but it can also help verify the authenticity of the traded assets.

Lower Fees and Security

The fees associated with Corsac transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payments. Corsac is a secure and private cryptocurrency that keeps the investor's assets anonymous without compromising security.

Transaction Traceability

Corsac is far more secure than other record-keeping systems because each new transaction is encrypted and linked to the previous transaction. Corsac is formed by a complicated string of mathematical numbers and is impossible to be altered. This immutable and incorruptible nature of the Corsac makes it safe from falsified information and hacks once formed.
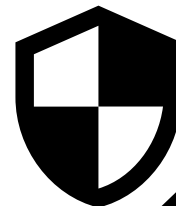

Ease of use

Ease of use is the reason why Corsac has more value. All you need is a smart device and an internet connection. Investors can easily earn rewards by staking the token.

Safe & Secure

Corsac is a safe and secure platform that is audited by Techrate and our technical team is continuously improving the security of the system to ensure the safety of platform.
